Five numbers, one colour

Ada Lovelace, born December 10, 1815. Everything in this dossier is calculated from those two facts with the Pythagorean system, master numbers kept. The working is printed on every page so you can check it by hand.

// HOW TO USE THIS DOSSIER

Pages 3 to 7 take one number each: the meaning, the working, and the light and shadow sides. Page 8 reads the numbers against each other. Pages 9 to 12 are exercises with space to write; print them as often as you like. Page 13 is your Soul Code artwork, page 14 a reference sheet for reading anyone's chart, and page 15 the method in full.

// WHAT THIS IS NOT

Numerology is a symbolic practice, not a science. This document is for reflection and entertainment. It does not predict events and is not medical, financial, legal or psychological advice. The calculations are exact; what they mean is yours to decide.

// HOW IT WAS CALCULATED

Month, day and year are reduced separately, then added. The month always reduces to a single digit; the day and the year keep master numbers if they land on one.

// LIGHT SIDE

Visionary creator who blazes new trails.

Ego-driven isolation. Aggressive dominance.
Refusal to collaborate or accept help from others.

// COMPATIBILITY NOTES FROM YOUR CHART

Life Path 1 is listed as a natural ally of 3, 5, 7 and as a challenging pair with 4, 8. The free compatibility chart at numerology.pardesco.com/decode/compatibility/chart/ explains each pairing.

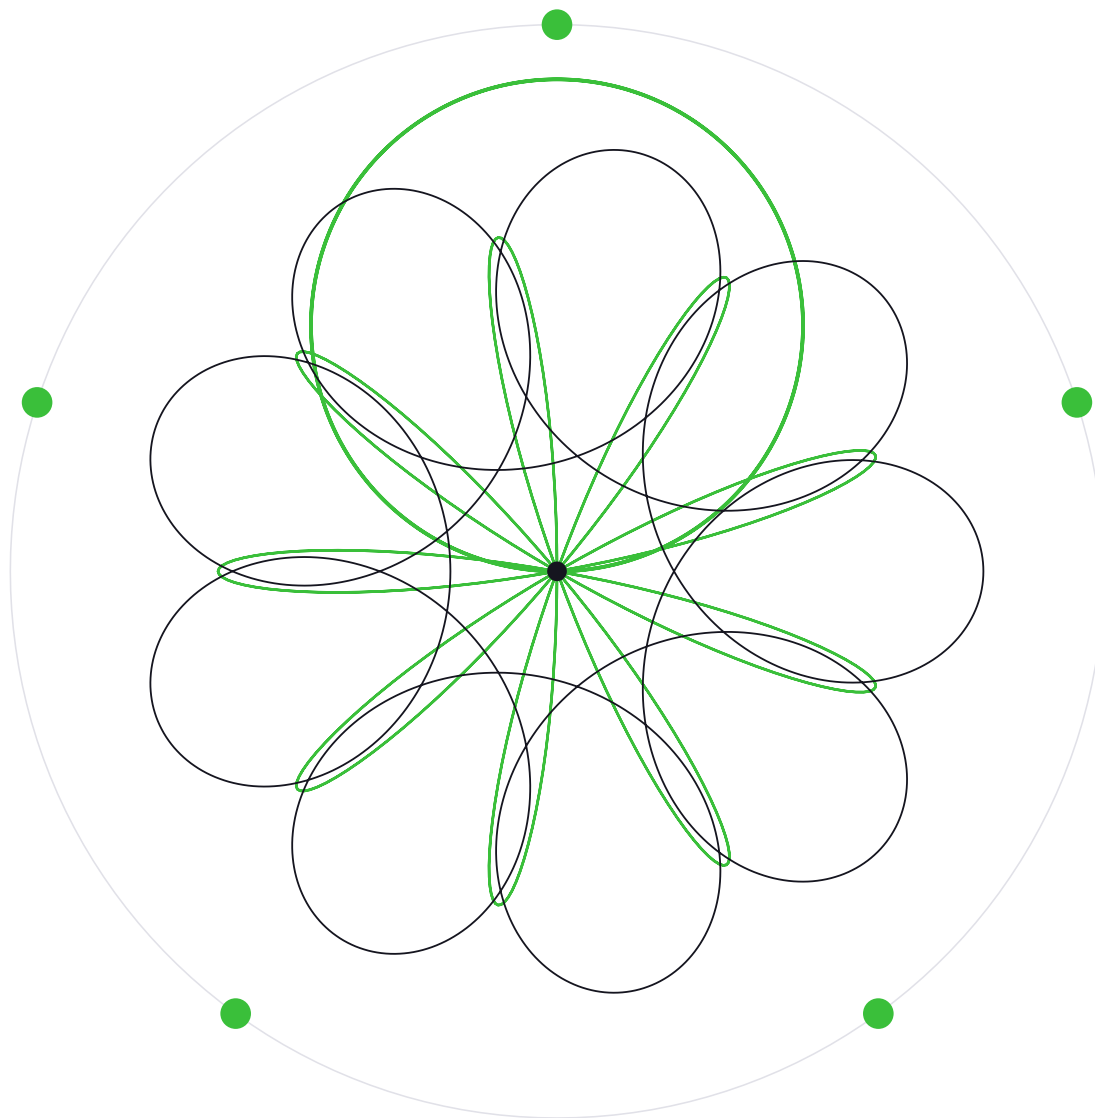

Exercise 01 // Light and shadow audit

Every number has a light side and a shadow side, and both are already in your life. This page is for evidence, not judgement. Your Life Path 1 light side reads: "Visionary creator who blazes new trails. Natural leader with original ideas. Self-starter who inspires others through action." Its shadow side reads: "Ego-driven isolation. Aggressive dominance. Refusal to collaborate or accept help from others."

- Pick one phrase from the light side you have actually lived in the last thirty days. Describe the moment in plain detail: where, who, what happened.

- Pick the shadow phrase that shows up when you are tired or cornered. What is the usual trigger, and what is the first sign you can notice in yourself?

- Write one sentence you could say to yourself at that first sign. Keep it short enough to remember.
